### Introductory note

#### This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

The variation is for the addition of 5 new waste codes to those already allowed under the installation and waste operation. The new waste types shall be subject to the same pre-acceptance and acceptance criteria agreed under the condition of the permit. There are no changes to the treatment and waste handling protocols.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
